CAN SCIENCE BRING CAFTAIN SCOTT BACK TO LIFE? EMINENT · FRENCHMAN SAYS YES AND WILL MAKE ATTEMPT THIS SUMMER

Dr. August de Castellane Seymore (left), Captain R. r. Scott, and sketch showing how Dr. Seymore hopes to bring the explorer back to life.

Dr. August de Castellane Seymore, a noted French scientist, claims that the body of a person frozen to death can be restored to life. To prove his contentions the Dorothea and R. F. Scott expedition, of which he is the head, has been organized to search for the body of Capt. R. F. Scott, for the main purpose, if found, of restoring the discoverer of the South Pole to life. The expedition vill leave San Francisco about June 1.

THE CITY WATER TODAY

Subjoined is today's official report of the condition of the city water, in connection with which the city water works and st werage board authorizes the following statement:

The board wishes every citizen to know the benefits of the pure, clear water supplied to them. It urges Clarksburgers to use it freely in the coming summer as the sewerage, dust, dirt and sulphur that find their way into the wells and surface water from which many are still drinking are of the greatest danger to

The board also wishes every citizen to know that the clear water supplied is the result of long years of experience of able men and that the board is doin all in its power to give the benefit of that experience.
